Beat the heat

While we are all hoping for a sunny and hot summer, it's important to stay safe in the warmer weather.

Not protecting yourself from the sun can cause permanent skin damage. Make sure you cover up and wear sunscreen to reduce your risk of skin cancer.

Being outside in excessive heat can lead to heatstroke. Remember to stay hydrated by drinking plenty of water, and heading indoors if you get too hot.

Patient Participation Group

We want to know what is going well and what we could do better at our surgery. This is why we have Patient Participation Groups (PPGs).

PPGs bring together patients and staff to discuss the range and quality of services provided by the practice.

If you would like to be involved in our PPG, please call the practice, and speak to a member of the team.
